- Empowering Knowledge & Employability

Workshop on: Budget Analysis 2015-16

On
7th March 2015
Between 9:30 AM & 5:30 PM

Venue:
National Institute for Micro, small and
Medium Enterprises (ni-msme)
(An Organisation of the Ministry of MSME,
Govt. of India)
Yousufguda,
Hyderabad - 500 045

Theme of the Workshop

The only thing constant in this world is “change”.

The mid-year economic analysis for 2014-15 presented in July, brought about a boost in public investment to a certain extent thereby aiding revival of economic growth.

Hence, the expectancy from the current budget is high.!

The first full fledged budget of the current government is expected to bring about a nascent recovery in the economy, thereby raising public investments. Also, The said budget is expected to provide more clarity on tax policy. i.e. reforms in the direct & indirect tax laws are something to watch out for.!

All in all, the said budget is expected to be “Industry friendly”

As the saying goes, “Do not wait until you are ready to take action, instead take action to be ready...!!” Here is an opportunity to gain clarity on the current changes in the budget, the impact of such changes on the industry etc., to the extent possible. Change is inevitable, progress is optional..! So, Lets analyse, Lets progress..! Lets get budget-ready..!!

Delegate Fee:

Early bird Fee: Rs. 800/delegate (inclusive of ST) Spot Registration: Rs. 1000/-delegate(inclusive of ST)

About Hiregange Academy

Knowledge is not Power..! Knowing a concept is only potential value. The execution of knowledge is where the power lies...!!

The need is mutual for both the industry and the Job aspirants i.e., the industry requires well-trained executives and the Job aspirants require good exposure. But there is something that is lacking in both the Job-aspirants and the industry. The Job-seekers, despite of being well educated, are not well trained.

Hence, Hiregange Academy has taken a step forward to bridge the gap between the Industry and the Job-aspirants.

The knowledge inputs, guidance, specific training and solutions to common problems, real life case studies and some technology exposure would ensure enhanced employability of the youth and enhance the quality of already employed. For the industry, “the right resources for the right job” can be achieved.

We aim to provide a win-win-win situation for the Job seekers, employers and employees while being a contributor to the nation at large.
