About the Seminar

Every decision we make in life, there's always a "cost"

World is becoming costlier & in the recent times, we have seen the margins getting squeezed and growth slowing down. Among the various reasons for the slow growth, Indirect taxes plays a very important role as it constitutes 20%-25% of the top line.

Understanding the Input Tax Credit and possible impacts of customs, excise, service tax and VAT on a transaction would provide the possibility of optimizing taxation with least disputes and improve margins. To reduce the cost and increase customer centric quotes would require managers/ officers to understand some areas of impact i.e., Input Tax Credit and the inter connection of the Indirect taxes. Companies and businesses could also structure their transaction to bring down the final impact on IDT on the projects which would bring down the project cost to some extent.

As the saying goes , "The secret of success in life is for a man to be ready for his opportunity when it comes."

Well, here is an opportunity to learn about one of the most important concepts in IDT i.e., Input tax credit, its implication on cost & tax planning.

So, come along and attend the Seminar conducted by Hiregange Academy at Sanman Gardenia on 12th September, 2015 from 10.00 A.M. to 4.30 P.M.
