Theme of the Workshop

Every decision we make in life, there's always a “cost”

World is becoming costlier & in the recent times, we have seen the margins getting squeezed and growth slowing down. Among the various reasons for the slow growth, **Indirect taxes** plays a very important role as it constitutes **20%-25%** of the top line.

Understanding the Possible impacts of customs, excise, service tax and VAT on a transaction would provide the possibility of optimizing taxation with least disputes and improve margins.

Efficient procurement to reduce the material cost and effective marketing customer centric quotes would require managers/ officers to understand some areas of impact and the inter connection of the Indirect taxes.

Companies involved in expansion/ setting up could also structure their transaction to bring down the final impact on IDT on the projects which would bring down the project cost to some extent.

As the saying goes , “The secret of success in life is for a man to be ready for his opportunity when it comes.” Well, here is an opportunity to learn about cost control techniques & tax planning. So come, join us on the 9th May 2015..!

Delegate Fee:

- Delegate fees- Rs 3000/Delegate including ST
- More than 3 delegates from same company- Rs. 2500/Delegate
