Theme Of The Seminar

“The Only Thing Constant In This World is Change.
Change Is The Key, That Drives You To Greater
Opportunities.”

The Union Budget 2015-16. being a growth oriented budget” brought a boost in investments, revival in the economic growth and focused on making India a manufacturing hub by its “Make in India” initiative. It has been ‘Corporate Friendly’ and brought tax reforms in Direct and Indirect taxes.

All Eyes on Union Budget 2016-17, Expectations are High. It continues to aim and achieve a decline in inflation, growth in industrial & agricultural Sector. The equitable opportunities for every economic participant would fuel an economic growth for India, which is the theme for the Union Budget 2016-17. Perhaps, the New Year could witness the establishment of sturdier bridges between the determinants of microeconomic and macroeconomic growth, the benefits of which would be relished by every section of society, irrespective of its size or nature.

Budget 20176-17 will set a Road Map for the coming 3 years, by bringing about yet again major tax reforms both in Direct Tax and Indirect Tax. 2016 can be a Year of change for Indirect Taxes.

There is a widespread expectation that this will contain several tax proposals which will have significant impact and have far reaching implications. In order to bring greater awareness about the new tax proposals and policy initiatives, here is an opportunity to gain clarity and the impact of changes on the industry, business, etc., to the extent possible.

“Do not wait until you are ready to take action, instead take action to be ready...!!”

So, Lets analyze, Lets progress..!

Lets get budget-ready...!!
